

INDEX TO VOLUME II

Aitken, A. C. Some applications of generating functions to normal frequency	130
Ananda-Rau, K. On a Tauberian theorem concerning Dirichlet's series with positive coefficients	310
Bailey, V. A. The interaction between hosts and parasites	68
Bosanquet, L. S., and Linfoot, E. H. Generalized means and the summability of Fourier series	207
Burchnall, J. L., and Chaundy, T. W. A note on the hypergeometric and Bessel's equations (II)	289
Carlitz, L. A problem in additive arithmetic	97
Carmichael, R. D. On a question related to Waring's problem	59
Cartwright, M. L. The zeros of certain integral functions (II)	113
Chaundy, T. W. Integrals expressing products of Bessel's functions	144
——— The validity of Lagrange's expansion	155
——— Partition-generating functions	234
——— See also Burchnall, J. L.	
Dixon, A. L., and Ferrar, W. L. Lattice-point summation formulae	31
Ferrar, W. L. See Dixon, A. L.	
Foulkes, H. O. The resolvents of an equation of the seventh degree	9
Fowler, R. H. Further studies of Emden's and similar differential equations	259
Hardy, G. H. The summability of a Fourier series by logarithmic means	107
Hodgkinson, J. Some results in the theory of conformal representation	20
Linfoot, E. H. See Bosanquet, L. S.	
Milne, E. A. Notes on thermodynamics:	
I. Osmotic pressure and stability	55
II. Effect of total pressure on osmotic pressure	56
III. The relation of osmotic pressure to concentration for dilute solutions	203
Newman, M. H. A. A theorem on periodic transformations of spaces	1
Oppenheim, A. A class of arithmetical identities	230
Pall, G. Simultaneous quadratic and linear representation	136
Pidduck, F. B. Electrical notes:	
III. The structure of electronic groups in wave-mechanics	78
IV. Alternating currents in networks	174
Poole, E. G. C. A problem concerning the hypergeometric equation (II)	90
Ruse, H. S. An absolute partial differential calculus	190
Smith, T. Tesselar matrices	241
Titchmarsh, E. C. On van der Corput's method and the zeta-function of Riemann (I), (II)	161, 313
Watson, G. N. Some self-reciprocal functions	298
Whittaker, J. M. A property of integral functions of finite order	252
Wright, E. M. Asymptotic partition formulae. (I.) Plane partitions	177
Verblunsky, S. A uniqueness theorem for trigonometric series	81
